Mines and Mining Stocks

Heinze's Engineer Accepts Metallurgical Managership of Great Cobar Works.

Herman C. Bellinger, who has builded a reputation as one of the finest metallurgical engineers and smelter experts in the gical engineers and smelter experts in the smelting world, with Montana and British Columbia as his chief field of endeavor during the past several years, has withdrawn from the staff of F. Augustus Heinze to go to Australia. Mr. Bellinger has accepted the position of metallurgical manager of the great smelting and refinhas accepted the position of metallurgical manager of the great smelting and refining works of the Great Cobar Copper Mining syndicate, an English corporation that owns the biggest copper mines, gold mines, coal mines, smelters and refineries in New South Wales. He has had the offer, which carries with it a princely salary and absolute control of the company's reduction works, for some time. He went east a few days ago to meet the He went east a few days ago to meet the representatives of the big company and sign a contract to serve for a year, with the privilege of making it three. Ac-companied by Mrs. Bellinger he will leave for the coast Sunday and sail during the

"I dislike leaving this country," said Mr. Beilinger yesterday, "but the offer made me to go away was one that I finally deme to go away was one that I finally decided would be unwise to decline. I understand that the company owns one of the finest smelting and refining plants in the world and it is now producing copper on a most extensive scale. The smelting works are located at Lithgow, but my headquarters will be at Sydney, which is the general headquarters of the company. I shall certainly be gone a year; how much longer will depend altogether on circumstances. I am sure, however, that I shall have a hankering to get back to the United States."

to the United States."

It is declared by close friends of Herman Bellinger that more credit is due to him for the advance in smelter practice during the past fifteen years than to possibly any other metallurgical engineer in the business today. More than once he has been robbed of the credit for improve-ments in smelting processes by men less reserved and more boastful in disposi-tion, that properly belonged to him. It was Bellinger's genius and skill that brought into practice the building of fur-naces that would handle great tonnages of ore in place of the universal 100-ton blast furnaces which, not so many years ago, were counted as the limit by smelting ex-perts. He is declared to be one of the very best informed and most practical smelting experts in this country today and his friends are willing to wager that he will add laurels to his already enviable reputation in his new field on the opposite side of the world.

TINTIC SHIPMENTS OF ORE AND BULLION FOR WEEK

(Special to The Herald.)

Eureka, Tintic, Dec. 11.—During the week ending this evening the mines of the Tintic district produced and shipped a total of 150 carloads of ore, 59 of which were 30-ton cars and the rest 50 tons. Inaddition to the consignments of small cars that went from the Knight mines to the Tintic smelter, and marked with an asterisk (*), the camp smelter took three cars from the Ajax and four from the Black Jack mines. All other cars went to Black Jack mines. All other cars went to outside smelters. The Tintic smelter shipped five carloads of lead-silver-gold bullion to the eastern refinery.

Following is the cars of ore shipped, with the mines from which they came.

To the Tintic smelter:

*Colorado *Dragon Iron *Iron Blossom To outside points: Centennial-Eureka Eagle & Blue Bell Eureka Hill ower Mammoth May Day, crude ore Yankee Consolidated Total carloads ...

RICH CPPER-SILVER ORE FROM SOUTH COLUMBUS

A chunk of ose from the South Columbus Consolidated company's property that was placed on exhibition in DeWitt B. was placed on exhibition in Dewitt E. Lowe's brokerage offices attracted a great deal of attention among mining men yesterday. The ore is a black sulphide and carries, in addition to better than 40 per cent copper, about 60 ounces silver per

workings of the property, where much of the same kind of ore is now being mined in a ledge that has been proven for more than twenty feet in width and along the strike for 200 feet. The rich ore makes in a mass of stuff that goes 3 to 4 per cent conner with pice values in silver as cent copper, with nice values in silver as well. The management of the property is now preparing to raise and sink, both, in this ore, and the expectation is that this portion of the South Columbus mine will become exceedingly productive of high grade ore.

Ore and Bullion.

Ore and bullion settlements in this city vesterday, as reported by McCornick & Co., amounted to \$80,000, as follows: Silver, Irad, gold and copper ores, \$20,000; base bullion, \$40,000.

Confounding to the Bears.

Market followers have all been contend Market followers have all been contending that Iron Blossom had no business to be selling so high and the market has been regularly fed with as much of the stock as it could absorb at the steadily gaining prices. Yesterday the demand was greater than ever and the stock became scarce. Over 20,000 shares were accounted for in the day's trading and a large perscarce. Over 20,000 shares were accounted for in the day's trading and a large percentage of the transactions was in "buyers." The price was advanced from \$2.45 to \$2.60 and the close was at prices around \$2.55. The strongest kind of a buying movement appears to have been launched and \$3 inside of ten days is the peg set by the friends of the stock. What has hapthe friends of the stock. What has hap-pened at the mine is not definitely known, but the declaration is made that the orders for the stock come from sources which leave little or no doubt that conditions have improved greatly. The life in Iron Blossom is having a stimulating effect on the entire market.

amounted to was not made public, and, as both sides are satisfied with the outcome of the transaction, there is no reason to bother over the debt-paying feature.

The Reciprocity company, or the promoters of it, at least, always believed that the company's ground was valuable, but somehow or another it was never able to somehow or another it was never able to raise money enough to properly prospect and open up the territory that will now be given the attention it so richly de-

BOSTON AND NEW YORK

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald.

After a lull it was bid up to & cents. In the afternoon the stock went as low as 64 cents per share and closed at 68 bid.

Stocks in San Francisco.

The closing quotations on Nevada stocks in San Francisco yesterday, as reported over the private wires of James A Pollock & Co., were as follows:

Boston, Dec. 11.—The annual report of Shannon, issued today, was misunderstood by a few people, and scattered selling orders broke the stock to 17½. We think the report is very bullish and shows extraordingly advanced in traordinary advances in the past year The production has increased over 5,000,000 pounds and the cost reduced almost 4 a pound. What other property in the same class can show an equal record? The traders tried to make a turn on the short side of conners today, but brought on side of coppers today, but brought out no liquidation and were obliged to cover without profit. Arizona Commercial was the favorite again, selling at a new high price of 40% and showing every indication of going much higher. East Butte sold in arge amounts at 10 and is being talked for 15 next move. Buy the coppers of all weak spots, and remember that the easy money will be made on the long sid or some time to come.

NEW COPPER CAMP TOWN GETS COUNTY HIGH SCHOOL

The King David Mining company has just added to its possessions the fifteen claims comprising the holdings of the Reciprocity Mining company which adjoin the King David's empire of ground on the northwest and which carry the big company's boundary lines on that side up to the possessions of the Cuprite company, the old Weshie of the Cuprite company, county bight.

the possessions of the Cuprite company, the old Washington company's ground.

An offer of \$15,000 was made for the Reciprocity ground some time ago by the management of the King William and the proposition was put up to the shareholders of the Reciprocity at a meeting called for the purpose Thursday afternoon. The offer was accepted without a dissenting vote and the deal was formally closed yesterday morning. The transaction will permit the Reciprocity company to declare a dividend of 3 cents a share and leave the organization without an asset other than its good name.

The property costs the King David company more than \$15,000 because the debts of the vending company were paid, as a part of the bargain, previous to the payment of the \$15,000. Just what these debts amounted to was not made public, and, as both sides are satisfied with the outcome of the transaction, there is no reason to

RAWHIDE COALITION IS KNOCKED BY BEARS AGAIN

In the meantime the King David management is making the fur fly at the site selected for the sinking of the first big operating shaft, which is now down seventy feet and on which the new hoisting works will soon be placed in commission.

COPPER STOCKS IN

RWUOKLD 51

New York, Dec. 11.—Rawhide Coalition stock, which was the sensational feature of yesterday's curb market, where it made a maximum decline of 65 points, sold fairly steady during today's early session, and the trading was only nominal. The opening price was \$1, an advance of 2 cents over yesterday's closing figure.

Mountain Lake—Cash, \$7,956.67; treasury

stock, 122,435 shares.

Mineral Flat—Accounts payable, \$7, Crown Point—Cash, \$12,696.74; treasury stock, 122,900 shares.

King David—Cash, \$4,138.57; treasury stock, 387,697 shares. Iron Blossom-Cash, \$3,656.60; treasury

stock, 100,000 shares. Uintah Treasure Hill—Cash, \$1,077.33. Opex Consolidated Mines Co.—Cash, \$34,-Black Jack Consolidated-Accounts pay-Beck Tunnel payable, \$31.472.59. Tunnel Consolidated-Accounts East Tintic Consolidated—Cash, \$609.17; treasury stock, 163,090 shares. Plutus—Cash, \$3,165.09; treasury stock,

250,000 shares. DOINGS OF UNLISTED STOCKS ON EXCHANGE

When unlisted stocks are lively one day they are usually neglected the next. Yesterday they were neglected, Ohio Copper sold at \$5.40 and 2,000 shares of Welmer Copper were gobbled up at 10c a chare.

Annie M. Hansen Fred O. Hansen

Daly-West was offered at \$10.75, Demi-john was quoted at 12½c bid, Plutus was offered at 16½c, while Uintah Treasure Hill was quoted at 26c at 28c, and Seven Troughs Coalition at \$1 bid. That settled attention given to the unlisted shares.

SILVER TAKES ANOTHER TUMBLE IN MARKET

♦ New York, Dec. 11.-There was a ♦ break of % of a cent per ounce in the price of bar silver today, as compared to last night's closing price, the decline was attributed to renewed selling by China and India.

The demand continues limited and the accumulation heavy.
